NOTES TO FINANCIAL STATEMENTS

1. <u>Summary of Significant Accounting Policies</u>

Organization

Cancer Coalition of South Georgia, Inc. (Organization) is organized pursuant to the Georgia Nonprofit Corporation Code (the Code). The Organization operates exclusively to prevent cancer and increase survival among people of South Georgia through community-based research, outreach, screening and education as authorized by the Code and within the restrictions of Section 501(c)(3) of the Internal Revenue Code. The Organization's primary sources of revenue are from state agencies, related party hospitals, fundraising programs, and private contributions.

Basis of Accounting

These financial statements, which are presented on the accrual basis of accounting, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into two classes – temporarily restricted, or unrestricted as follows:

- <u>Temporarily Restricted Net Assets</u> Net assets subject to donorimposed stipulations that may or will be met by actions of the Organization and/or the passage of time.
- <u>Unrestricted Net Assets</u> Net assets which represent resources generated from operations or that are not subject to donor-imposed stipulations.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenditures are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets. Expirations or restrictions on gifts of long-lived assets or assets to be used to purchase long-lived assets are reported as reclassifications when the long-lived assets are placed in service.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of support, revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

Gifts, Contributions and Grants

Contributions, including unconditional promises to give, are recognized as revenues in the period the pledge is received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. The Organization had grants receivable due in less than one year of \$202,250 and \$64,446 during 2012 and 2011, respectively. The Organization considers all accounts, grants and pledges receivable to be fully collectible; accordingly, no allowance for doubtful accounts is considered necessary. Management closely monitors outstanding balances throughout the year, and writes off to expense all balances that are considered uncollectible. Grants receivable consist of amounts awarded but not yet paid and due within the next year.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Income Taxes

The Organization is a not-for-profit corporation that has been recognized as tax-exempt pursuant to Section 501(c)3 of the Internal Revenue Code.

The Organization applies accounting policies that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the Organization only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent

that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses.

Based on the results of management's evaluation, no liability is recognized in the accompanying statements of financial position for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expense as of June 30, 2012 and 2011 or for the years then ended. The Organization's open audit periods are for tax years ended 2009-2011.
